| Contractor:                    | Submitted by:   |
| Manufacturer's representative: | Approved by:    |

## Technical data

Material Plastic

## Product information and application use

The Engineered Polymer (EP) Heating Manifold Actuator Adapter (A2671300) fits a Mohlenhoff four-wire actuator onto the EP Heating Manifold for use in hydronic radiant heating and cooling systems. Use only propylene glycol in radiant systems with EP Heating Manifolds; never use ethylene glycol.

| Part name                            | Part no. | Weight per UOM [lbs/UOM] |
|--------------------------------------|----------|--------------------------|
| EP Heating Manifold Actuator Adapter | A2671300 | 0.04                     |

## Installation

Hand-tighten the adapter to the female thread on the manifold and snap on the Mohlenhoff actuator. For additional information, refer to the instruction sheet. Note: Use only propylene glycol in radiant heating and cooling systems with EP Heating Manifolds; never use ethylene glycol. Refer to the EP Heating Manifold Installation Guide for a complete chemicals list.

## Related applications

Radiant Heating and Cooling Systems  
Permafrost Protection Systems  
Turf Conditioning Systems
