## Glenelly wine cellar, South Africa

Cape Town wine farm features South Africa's first TABS project and sets new standards to the construction industry.

### Project Facts:

Location

Stellenbosch, South Africa

Completion

2009

Building Type

Agricultural buildings

Product systems

Radiant Heating & Cooling

Address

Lelie Street,

Website

<http://glenellyestate.com>

Project Type

New building

## Partners

enduser

[May de Lencquesaing](#)

Lelie Street, Idas Valley, Stellenbosch

Unit 1 8 Daytona Road Killarney  
Gardens  
South Africa

---

The Glenelly Estate is in the Idas Valley, located in Stellenbosch, on the southern slopes of the Simonsberg Mountain. Its origins date back to the seventeenth century. In 2003 May de Lencquesaing, seeing great potential in the terroir of the 128 hectares Glenelly farm, decides to invest in this young republic and acquires the estate from the Garlick family.

Internationally considered as a benchmark in climate engineering, Glenelly Estate is a winery that features South Africa's first TABS (Thermally activated building systems) project and sets new standards to the construction industry in terms of innovation and climate engineering.

Engineered application of the most current building science and technology ensures room conditions of 16°C and 75% RH year round. An integrated passive strategy uses passive night time cooling combined with an evaporative cooling tower in winter and air cooled chiller plant in summer.

The successful operation of the project has defined new boundaries for TABS as a technology and has proven it's functionality in harsh South African summer climate. A total area of 3000 m<sup>2</sup> is activated by circulating water through the structure of the building. Thermal inertia of the 1600 tonnes of concrete controlled by sophisticated logic plays a significant role in the detailed design.
