

Uponor HypAir admittance valve 32-63

1134572

About Uponor HypAir admittance valve

Specification

Uponor HypAir admittance valves are one-way valves designed to allow air to enter the sewage system when negative pressures develops in the piping system. Uponor HypAir admittance valves close by gravity and seal the vent at zero differential pressure (no flow conditions) and under positive internal pressures.

Application

Housing sewage system ventilation acc. to local standardisation.

Certification

Class AI acc EN 12380, TÜV certified.
