| Material                        | Aluminum Laminate w/XPS Foam |
| Operating temperature min. [°F] | 50 °f                        |
| Operating temperature max. [°F] | 150 °f                       |
| R value                         | 3.13                         |
| Prop 65 label required?         | Yes                          |

## Product information and application use

Designed for residential new construction and remodels, Xpress Trak™ is a radiant panel that features lightweight XPS foam laminated with aluminum for exceptional heat-transfer capability. Straight runs and return bends are integrated into one panel for quick, easy ordering. To install, simply adhere the panels to a wood subfloor or a concrete slab.

| Part name                                  | Part no. | A [inch] | B [inch] | C [inch] | D [inch] | E [inch] | F [inch] | G [inch] | Weight per UOM [lbs/UOM] |
|--|----------|----------|----------|----------|----------|----------|----------|----------|--------------------------|
| Xpress Trak Radiant Panel, 6" o.c., 4 runs | A5070641 | 23.622   | 47.244   | 0.63     | 2.953    | 5.906    | 1.488    | 1.457    | 1.45                     |

## Installation

Use water-based sealant to adhere the panels to a wood subfloor or a concrete slab. Then, press the 5/16" Wirsbo hePEX™ pipe into the panel grooves using hands or feet. For further information, refer to the Xpress Trak Installation Guide.
