Informations sur le produit et utilisation de l'application

The Ecoflex® Connection Vault provides a fully watertight, insulated enclosure for multiple straight-through and branch underground connections. This product is designed to eliminate the need for multiple branch connections, saving installation time and cost. Step-down outlets are compatible with the majority of Ecoflex piping. Note: End Caps are required at all ends of the piping system to ensure insulation integrity.

L'installation

The Connection Vault is designed for burial. Position the Connection Vault in the trench to achieve proper pipe alignment prior to inserting the piping. For complete instructions, refer to the Pre-insulated Pipe System Connection Vault Instruction Sheet

Applications connexes

Radiant Heating and Cooling Systems
Permafrost Protection Systems
Turf Conditioning Systems
