

Dear Partner,

From December 1, 2019, the following Uponor-companies in the Nordic countries receive purchase invoices electronically.

Due to our invoicing guidelines, we will from now on use electronic invoice format as the preferred alternative and gradually as the only invoicing option. It is mandatory to always reference the Uponor PO number or e-mail address of Uponor contact person on the invoice (please ask your Uponor contact person to provide this information).
