Made from pressed stainless steel, both of these new manifolds are for heating systems ONLY and cannot be used for potable water systems.

Inlet and outlet connections are standard 1" BSP swivel nut connections. Pipe connections to the manifold outlets remain compatible with the Uponor 3/4" Eurocone adapters for MLC and Q&E Shrink-fit.

These items fall under the standard UFH discount structure.

These new manifolds are available to be ordered from 1st February 2019. Delivery is currently from our European warehouse and will take 5-7 days
