GENERAL CONDITIONS OF WORK OF THE SERVICING GROUP OF UPONOR INFRA Sp. z o.o.

Extrusion welding

1. The Client shall appoint a person responsible for contact with the servicing group of Uponor Infra sp. z o.o. at the building site and will ensure the presence of that person at the place of installation during the performance of the works.
2. The Client shall ensure safe working conditions for Uponor Infra sp. z o.o. employees in accordance with applicable laws and regulations, and in particular undertakes to properly prepare and secure excavations in accordance with the health and safety and fire regulations in order to safely carry out work during the laying and assembly of pipes, manholes, etc.

In the event of an accident at work due to reasons attributable to the Client, and in particular the excavation contrary to applicable health and safety regulations or inadequate securing of the excavation, the Client shall be liable for such an event.

3. Work involving the unloading, handling and correct positioning of pipes and prefabricated elements, necessary to perform the service, shall be on the part of the Client.
4. The Client shall dry the excavation and secure the excavation against collapse of the side walls at the site before the planned arrival of the servicing team and during the works. The above activities shall be performed by the Client at its own expense and on its own account.
5. The Client shall provide an installation hole min. 0.9 m in depth, 0.5 m in width and no less than 1 m in length in the excavation, at the place of making connections of stub-pipes (so called "clips") of adjacent tanks by extrusion welding.

6. The Client shall provide free-of-charge additional equipment necessary for the execution of correct connection, specifically:
 - a) cranes enabling the free movement of the sections of connected pipelines,
 - b) webbings and other lifting slings adapted to the transported elements in terms of the resistance and length, with valid tests by Office of Technical Inspection.
7. All costs related to the use of additional equipment, including personnel costs, shall be borne by the Client and shall not be reimbursed by Uponor Infra sp. z o.o. In case of failure to provide additional equipment necessary to perform the ordered works in a proper and timely manner, Uponor Infra sp. z o.o. shall have the right to arrange such equipment on its own at the expense and risk of the Client, and any costs incurred in connection therewith shall be reimbursed by the Client within 7 days of being notified that such costs have been incurred.
8. The Client acknowledges that Uponor Infra Sp. z o.o. is responsible only for the quality of the connections made by Uponor Infra sp. z o.o., or another company acting under its authorization, and when both connected materials are manufactured by Uponor Infra Sp. z o.o.

Failure to meet all of the above conditions will prevent Uponor Infra sp. z o.o. from commencing work and will result in:

- charging the Client with the costs of travel and downtime of the servicing group;
- setting a new possible deadline for Uponor Infra sp. z o.o. to complete the works.
- no liability of Uponor Infra sp. z o.o. for any delays towards the Client, the Investor and third parties;

The Client:
