

# Uponor

## Uponor Smart underfloor heating system

Complete system: efficient and streamlined  
portfolio for standard installation situations

### Your benefits:

- a complete system with few components
- reducing complexity
- extremely efficient
- easy to install
- reliable Uponor quality

# Affordable quality from the premium producer

All components of the Uponor Smart underfloor heating system are designed to perfectly match each other. Choose between tacker panels, clamp track or cable ties for steel mesh to efficiently fix the Smart UFH pipe. All components are designed to ensure highest safety and reliable operation.

## Your benefits:

- Flexible Smart tacker panels or rolls with different thermal and impact noise insulation layers
- Universal Smart tacker pipe clip for pipe diameters 14-20mm
- Flexible choice to fix the Smart UFH pipes with clamp track / cable ties on all relevant insulations
- Suitable for all types of screeds
- Fast and easy to install

Smart tacker

Smart manifold
