

Smarter, Safer In-slab Plumbing

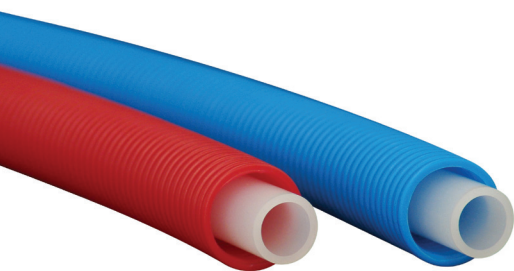

When you need a durable, reliable in-slab piping solution for your plumbing projects, look to pre-sleeved Uponor AquaPEX®. With its color-coded red or blue HDPE sleeving around strong, durable PEX-a pipe, you have the fastest, easiest method for installing plumbing systems in the slab.

Features and Benefits

- › Resists corrosion, pitting, and scaling
- › Superior sound insulation qualities
- › Shorter pipe runs for less material usage and better pressure to fixtures
- › Easily identify hot and cold water lines
- › Long, flexible coils for fast, easy installations with no fittings in the slab
- › No hangers, less ladder time for faster, easier, more economical installs
- › Stable material costs to accurately bid jobs
- › No insulation required; easier scheduling with only one trade
- › No flame, no fire watch requirements
- › Lightweight, easy to move
- › Smooth surface; reduced pressure loss
- › Strong ASTM F1960 ProPEX® expansion fitting connections
- › Design services for accurately calculated hot-water times
- › Proven by Plastics Pipe Institute (PPI) Technical Report TR-52 for exceptional resiliency in freeze/thaw cycles

Part No.	Part Description
F1091500	½" Pre-sleeved Uponor AquaPEX Blue Sleeve, 400-ft. coil
F1092500	½" Pre-sleeved Uponor AquaPEX Red Sleeve, 400-ft. coil
F1091750	¾" Pre-sleeved Uponor AquaPEX Blue Sleeve, 400-ft. coil
F1092750	¾" Pre-sleeved Uponor AquaPEX Red Sleeve, 400-ft. coil

Better Performance

Pre-sleeved Uponor AquaPEX in-slab plumbing systems require shorter pipe runs for less material, less water volume, less energy, better hot-water delivery times, and less water consumption.

Safer System

Because in-slab pre-sleeved Uponor AquaPEX systems use shorter runs of pipe embedded in concrete, the water in the pipe is spending less time in the optimal bacterial grow zone (77°F to 108°F / 25°C to 42°C), providing a safer system. Additionally, the shorter pipe runs provide better pressure to the fixtures for higher velocity to minimize biofilm attachment and growth, especially compared to metallic piping systems.

Service and Support

Backed by a 25-year transferable limited warranty and supported by a trained staff of field technicians and a nationwide distribution network, Uponor is the reliable, dependable partner you can count on.
