

Revolutionen indenfor installation.
Uponor MLC Modulært Stigstrengssystem
MLC 63 - 110 mm

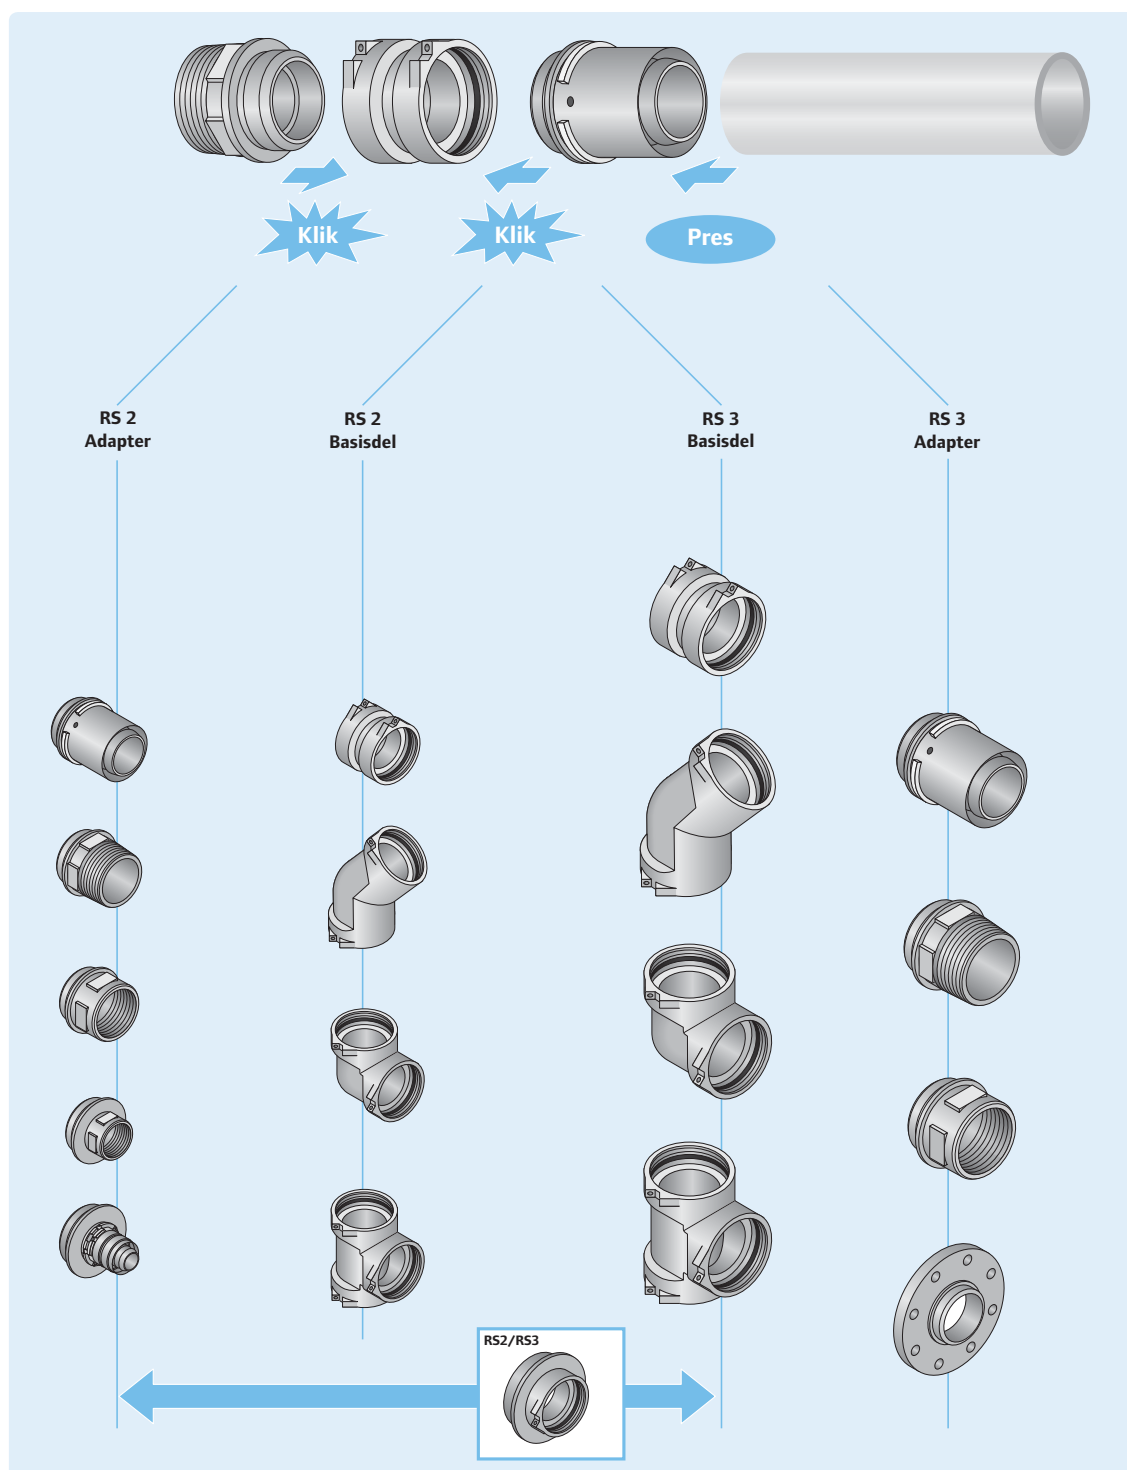

Nytænkning

Uponor MLC Stigstrengssystem MLC 63-110 mm – Modulsystemet, der klarer alle opgaver

Maksimal fleksibilitet med kun 27 dele

Uponor MLC stigstrengssystem 63 – 110 mm består af få komponenter, der alle er afstemt perfekt i forhold til hinanden. De dele, der er til rådighed dækker alle nødvendige størrelser, som er nødvendige for at opbygge et komplet stigstrengssystem

Det nye Uponor MLC Modulært Stigstrengssystem: Enkel montage, fleksibel planlægning og optimal indkøb

Enestående og innovativt stigstrengssystem revolutionerer installationsteknikken. Modulært fittingsystem med gennemprøvet presteknik for rørforbindelser op til Ø110 mm!

Det nye Uponor MLC Modulært Stigstrengssystem – Modulært design for alle tænkelige kombinationer:

- Kun 27 systemkomponenter muliggør hundredvis af variationer.
- Nyt koblingskoncept: Basisdele og dertil hørende adapterindsatse i forfinnet messing.
- Gennemprøvet presteknik for rørforbindelser.
- Ny type stikforbindelse mellem basisdel og adapter.
- Intet behov for ekstra værktøjer.
- Man kan bruge den velkendte Presmaskine UP 75 helt op til Ø 110 mm.

Uponor MLC Modulært Stigstrengssystem muliggør med kun 27 systemkomponenter alle mulige forbindelser og erstatter 300 fittings.

Basisdele og adapter muliggør alle tænkelige forbindelser.

Meget mere fleksibilitet med færre dele.

Sjældne forbindelsestyper udføres let med Uponor MLC Modulært Stigstrengssystem.

En procedure til alle opgaver

På grund af modulopbygningen består alle samlinger af de samme 5 trin. Presværktøjet bliver kun benyttet til pres og denne arbejdsgang kan derfor nemt foretages på arbejdsbordet. Det er ikke mere nødvendigt at stå i ubekvemme stillinger i hjørner med hænderne over hovedet for at få samlingerne færdiggjort.

Pres ganske enkelt det afgratede og kalibrerede Uponor MLC rør ind i presadapteren.

Pres.

Stik den forberedte rørforbindelse ind i basisdelen.

Selv på svært tilgængelige steder er monteringen nem.

Stik låsestiften ind i fittings.

Lås enden af låsestiften fast til fittings med et klik.

Kombinationsmulighederne gør systemet uovertruffen fleksibelt

Modulopbygningen giver altid en hurtig løsning. Uden lange leveringstider og ekstraomkostninger for specialdele.

Eksempler med T-stykke varianter

Eksempler med 45° bøjninger eller 90° vinkler

Eksempler med koblinger og reduceringer

Eksempler

T-stykke med reduktion

Nødvendige dele til denne forbindelse

-  1 x Uponor RS T-Stykke
-  2 x Uponor RS Presadapter 40-110 MLC
-  1 x Uponor RS Kobling, reduktion
- 

Uponor Pres-bøjning MLC

Nødvendige dele til denne forbindelse

-  1 x Uponor RS Vinkel 90°
-  2 x Uponor RS Presadapter 40-110 MLC

Uponor Pres-Reduktionsmuffe MLC

Nødvendige dele til denne forbindelse

-  1 x Uponor RS Kobling
-  1 Uponor RS Presadapter 40-110 MLC
-  1 Uponor RS Adapternippel

Kobling

Nødvendige dele til denne forbindelse

-  1 x Uponor RS Kobling
-  2 x Uponor RS Presadapter

Kobling reduktion, 75-110

Nødvendige dele til denne forbindelse

-  1 x Uponor RS Kobling
-  1 x Uponor Presadapter
-  1 x RS Presadapter 25-32 MLC

Kobling reduktion, 110 - 25

Nødvendige dele til denne forbindelse

-  1 x Uponor RS Kobling
-  1 x Uponor Presadapter
-  1 x RS Presadapter 25-32 MLC
-  1 x RS Adapter RS3/RS2
