A unique multifunctional project in the centre of Bratislava on the site of the former Stein Brewery, offering timeless housing. The apartment section required a complete delivery of distribution pipelines and systems for mounting radiators using

thermally insulated MLC piping ranging from 16 to 50 mm in diameter.

The plumbing in the TAP WATER section involved complete delivery of distribution pipelines and systems using thermally insulated MLC piping ranging from 16 to 50 mm in diameter.

A unique modular system using MLC Riser piping ranging from 63 up to 110mm in diameter was used in the Plumbing section for waste stack connections.
